

## Multipurpose metal cabinet h228\_20

**Multipurpose metal cabinet** for document storage with **internal shelves**. Dimensions: W.57 x D.38 x h.102.

**Multipurpose cabinet**, metal, practical and functional, made in Italy with quality materials, ideal for document storage. Monobloc structure made of sturdy sheet steel with reinforced hinged door and equipped with two internal shelves. Ideal for any environment. Painted with **non-toxic** thermosetting epoxy powders, which give the furniture a guarantee of durability over time, even against atmospheric agents. The very accurate and precise profiling prepares the semi-finished parts that will compose the cabinet during assembly and welding, operations carried out using a robotic island that guarantees the solidity of the product, a very important characteristic especially if the cabinet is used in factories, hospitals, gyms, sports centers, and schools.

### Technical features:

- Sheet steel structure
- Internal sheet metal shelves
