

Multipurpose service trolley h099916

Multipurpose 3-shelf service trolley in plastic and anodized aluminum (85x43x95 cm). Load capacity 40 kg, ideal for food service and catering.

The **h099916** multipurpose service trolley is a versatile solution designed for the efficiency of transport operations in HoReCa contexts and professional canteens. Thanks to the strategic combination of lightweight and resistant materials, this tool facilitates the movement of dishes, food and equipment between kitchen departments and serving areas. The three-level configuration allows for a rational organization of the load, reducing operating times in restaurants, hotels and banqueting services.

Technical characteristics

- **Structure:** oxidation-resistant anodized aluminum uprights
