

## Multipurpose telescopic ladder h858\_22

Multipurpose telescopic ladder in anodized aluminum (4.13 m). 2x7 non-slip steps and locking system for intensive professional use.

The **multipurpose telescopic ladder** is a versatile tool designed for professional operators who require safe access to heights without sacrificing portability. The **anodized aluminum** structure ensures high mechanical resistance and protects contact surfaces, making it ideal for work in clean environments or frequent maintenance. Thanks to its telescopic mechanism, it solves the critical issues related to the storage and transport of fixed ladders, quickly adapting to different operating heights.

## Technical features

- **Material:** High-resistance anodized aluminum
- **Step configuration:** 2 x 7
- **Maximum extended height:** 4.13 meters
- **Maximum load capacity:** 150 kg
- **Safety:** Special steps with ribbed non-slip surface
- **Mechanism:** Integrated locking system for maximum stability
- **Distance between rungs:** 28 cm
- **Closed dimensions:** 128 x 48 x 21 cm
- **Compliance:** Manufactured according to EN 131 safety standards
