

Multipurpose trolley h809_53

Multipurpose service trolley h809_53 in ABS and aluminum with 2 levels. Dimensions 76x53x90 cm, quick tool-free assembly for the HoReCa sector.

The **h809_53** two-level multipurpose service trolley represents an advanced logistical solution for the HoReCa, hospitality, and modern office sectors. Designed to optimize workflows in environments that require frequent moving of dishes, equipment, or supplies, this model combines a lightweight **extruded aluminum** structure with **high-resistance ABS** shelves. The double-injection production technique of the surfaces ensures an impact-resistant matte black finish, ideal for maintaining a consistent professional aesthetic over time even under operational stress.

Technical specifications

- **Materials:** Load-bearing structure in aluminum and high-quality ABS shelves.
- **Dimensions:** W 76 x D 53 x H 90 cm.
- **Loading levels:** 2 levels with matte black double-injection finish.
- **Mobility system:** 4 high-smoothness Ø 100 mm swivel wheels.
- **Safety:** 2 wheels equipped with integrated parking brakes.
- **Maintenance:** Completely dismountable without the aid of tools.
- **Resistance:** Water-repellent materials resistant to chemical detergents.
