

Museum display case with 4 LEDs h1041_03

Museum display case in iron and 8 mm tempered glass. Dimensions: 120 x 60 x 105 cm, with 2-door lower cabinet, 4 corner LEDs and security locks.

The **museum display case with 4 LEDs** is a professional display solution that integrates a high-visibility showcase and a practical lower storage space into a single element. Made with a robust **iron structure** and a two-door sheet metal cabinet, this display case meets the need to display valuable items while ensuring a closed compartment for storing related materials or documents. The upper part is protected by **8 mm tempered glass**, which offers superior mechanical resistance and optimal transparency. The lighting is provided by **4 LED spotlights positioned in the corners** with a color temperature of 4,000°K, ideal for a natural color rendering of the exhibits. Both compartments, the showcase and the lower cabinet, are equipped with **security locks**. The product is supplied already assembled, ensuring stability and immediate readiness for use.
