

Museum display case with lighting h1041_07

Museum display case in wood and 8 mm tempered glass with 8 lateral LED spotlights, removable base and locks. Dimensions: 182 x 80 x H 105 cm. Black color.

The **museum display case h1041_07** is a professional display solution designed for the protection and enhancement of valuable objects in high-level cultural and commercial contexts. The structure is characterized by a complex configuration: a **removable wooden base** 60 cm high, an **8 mm tempered glass showcase** with a height of 30 cm and an upper section of 15 cm, for a total height of 105 cm. This architecture guarantees solidity and an optimal view of the exhibits. The integration of **8 lateral LED spotlights** at 4,000°K solves the problem of point lighting, offering a neutral light that enhances details without altering the materials. The presence of security locks and the removable nature of the base respond to the operational needs of protection and ease of transport typical of museums and art galleries.
