

Non-slip and stackable foam stairs h999_13

Psychomotor foam stairs 25 kg/m³, 65x60x30 cm. Non-slip leather-effect cover, bite-resistant and stackable for nurseries and kindergartens.

The **65 cm foam stairs for nursery** is a teaching module designed specifically for **psychomotricity** paths aimed at children in the age group between **18 months and 3 years**. The tool is conceived to support the acquisition of balance and motor coordination in professional educational contexts, offering a stable and safe base for autonomous exploration of the space.

Made with a core in **high-density foam (25 kg/m³)**, the structure guarantees an excellent shock absorption capacity, maintaining its shape even under prolonged stress. The external coating in synthetic material with a **leather-effect** finish is certified bite-resistant and antibacterial, ensuring maximum hygiene in high-traffic collective environments.

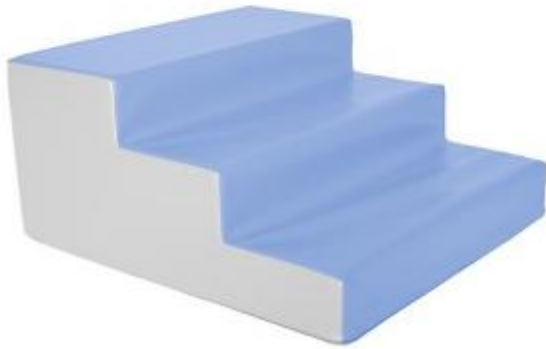

Technical features

- **Target use:** children from 18 to 36 months
- **Dimensions:** Length 65 cm, Depth 60 cm, Height 30 cm
- **Internal core:** polyurethane foam density 25 Kg/m³
- **Coating:** non-slip surface with a delicate tactile texture
- **Safety:** shockproof, bite-resistant and phthalate-free materials
- **Logistics:** stackable module for storage optimization
- **Compliance:** EN71-3 (Toy Safety), REACH, ISO 9001, ISO 14001
