

## Northmace h41416 hotel ironing board with steam iron

Northmace steel ironing board with 2200W steam iron and wardrobe hook. Professional adjustable space-saving solution for hotels and resorts.

The **Northmace ironing board** is an essential equipment for hotels, resorts, and hospitality structures wishing to offer maximum comfort to their guests. Specifically designed for the **HoReCa** sector, this system solves the problem of room clutter thanks to its **completely stowable** structure: the practical integrated hook allows the entire station to be hung inside the wardrobe, optimizing every square inch of the room.

Operational safety is guaranteed by the **professional steam iron included**, equipped with a timed automatic shut-off system that intervenes after 30 seconds of inactivity in a horizontal position or after 8 minutes vertically. The **steel** structure with stabilizer feet and adjustable height ensure an ergonomic and professional user experience, while the extra padding of the surface promotes impeccable results on every type of fabric.
