

Northmace h41417 ironing board with steam iron

Professional Northmace steel ironing board with 2000W steam iron. Space-saving system with wardrobe hook and anti-scorch cover for hotels.

The **Northmace ironing board** is the professional solution designed to elevate comfort standards in hotel rooms and hospitality facilities. This furnishing accessory combines functionality and safety, offering guests an **easy and intuitive** ironing tool. The **steel** structure is equipped with stabilizing feet and a height adjustment system that adapts to the user's different ergonomic needs.

The system includes a **2000W steam iron** with integrated safety technology: the automatic shut-off activates after just 30 seconds of inactivity in the horizontal position and after 8 minutes in the vertical position, preventing fire risks or fabric damage. After use, the **integrated hook** and cord management system allow the entire set to be stored neatly in the wardrobe, effectively solving the problem of room space optimization. The **anti-scorch metallized cover** also ensures greater durability and superior protection during ironing sessions.
