

## Northmace h41418 folding hotel ironing board with dry iron

Northmace Elegance ironing board with 1100W dry iron and wardrobe hook. Adjustable steel structure, metallized cover and auto-off.

The **Northmace Elegance ironing board** is a fundamental element for hotels and accommodation facilities aiming to guarantee high-level hospitality directly in the room. Designed to be **easy and intuitive**, this system allows guests to independently manage the ironing of their clothes. The **steel** structure with stabilizing feet ensures a solid base during use, while the height adjustment system guarantees maximum ergonomic comfort for every type of user.

The set brilliantly solves the problem of space in rooms thanks to the **integrated hanging hook**, which allows the board to be stored inside the wardrobe in a hanging position or via the included wall bracket. Safety is at the heart of the project: the **1100W dry iron** integrates an automatic shut-off timer that activates after 30 seconds in a horizontal position and after 8 minutes vertically. The **metallized finish of the board cover** not only promotes uniform heat distribution for excellent results, but also ensures greater resistance to professional wear.

## Technical features
