

Notice board for public spaces for inground mounting h287_389

Notice board for public spaces with glass door and lock, galvanized steel structure. Dimensions: W 98 x H 250 cm.

The **h287_389 notice board for public spaces for inground mounting** is a robust, secure, and aesthetically sober solution for the display of notices, communications, and information material in **outdoor environments** such as parks, schools, municipal areas, city streets, or nature trails.

The structure is composed of **two Ø76 mm galvanized steel round tube posts**, designed to be **buried directly in the ground**, offering stability even in conditions of intensive use or in wind-exposed areas. The frame, made of a **60x30 mm galvanized steel profile**, houses an **opening aluminum door**, equipped with a **safety lock** to protect contents from tampering or vandalism.

The **3+3 mm laminated glass**, complying with accident-prevention regulations, protects the internal surface while ensuring excellent visibility of the information. The **useful space for posting is 70 x 100 cm**, perfect for posters, timetables, institutional notices, or school communications. The interior is galvanized and prepared for use with **magnets**, supplied as standard, to avoid the use of adhesive tape or pins.

The product is **grey** in color, to adapt with visual consistency to the identity of the urban or institutional environment in which it will be installed.

Choose a functional, safe, and durable solution for your public communication. Order the **H287_389 notice board** now or request a quote for supplies dedicated to public bodies or schools.

FAQ:

1. **Is the notice board suitable for all weather conditions?**

Yes, thanks to the galvanization, it is perfect for continuous outdoor use.

2. **Is it easy to change internal postings?**

Yes, the magnetic panel allows you to fix sheets with the supplied magnets, without damaging the surface.

3. **Is the lock standard or special?**

The notice board is equipped with an integrated lock for greater security.

4. **What color is the structure?**

The structure is grey.

5. **How is the product anchored?**

The product is designed to be buried.

Mini buying guide:

When choosing an **outdoor notice board for public use**, carefully evaluate **the resistance of the material, the protection of the contents, the simplicity of management, and safety**.

The H287_389 model represents an excellent solution for **permanent outdoor installations**, thanks to its **robust structure, accident-prevention glass, and integrated lock**.

The 70 x 100 cm display space is sufficient for institutional communications, while the **grey color** allows for aesthetic harmony with the urban context.
