

Notice board for public spaces h287_386

Wall-mounted notice board in galvanized steel, with decorative ornaments. Dimensions: W 110 x H 160 cm.

The **H287_386 notice board for public spaces** is a robust and elegant information structure, designed for the **display of notices, institutional communications, or information materials** in urban and community environments. Ideal for **municipalities, schools, public offices, museum areas, and nature trails**, it guarantees maximum visibility and durability over time.

Made of **12/10 mm thick galvanized steel sheet**, with a **reinforced frame in galvanized steel tubing**, the notice board is designed for intensive outdoor use. The structure is completed by **decorative ornaments** in laser-shaped sheet metal (30/10 thick) and **robust wall anchoring supports** made of 60/10 mm thick laser-shaped steel, for **maximum stability and structural resistance**.

The neutral and modern **gray coloring** easily adapts to different architectural contexts, making the notice board perfect for **permanent installations on the exterior or interior walls** of public buildings.

Communicate effectively and with style in your public spaces. Buy the **H287_386 notice board** now or request a quote for large-scale supply.

FAQ:

1. Is the notice board suitable for outdoor use?

Yes, it is designed to resist atmospheric agents thanks to galvanization.

2. **How is the notice board fixed to the wall?**
It is prepared with steel supports for direct wall mounting.
3. **What is the available posting surface?**
The useful surface of the board is 100 x 140 cm.
4. **Is it possible to change the color?**
The standard version is gray.
5. **Is it also suitable for indoor environments?**
Yes, the notice board can be installed both outdoors and indoors.

Mini buying guide:

When selecting a **notice board for public spaces**, carefully evaluate **material resistance, protection from atmospheric agents, and ease of reading and accessing information**.

The H287_386 model, thanks to its **galvanized steel construction with a reinforced frame**, is perfect for long-lasting and stable use. The decorative ornaments also make it suitable for historical or architecturally significant contexts.

The **wall mounting** facilitates its installation on public buildings, schools, or cultural centers, while the **gray finish** ensures perfect visual integration.

Public notice board in galvanized steel, wall-mounted outdoor posting board, urban information board, notice board for public entities H287_386, weather-resistant wall notice board, galvanized sheet metal notice board.
