

Notice board for public spaces with lock h287_388

Outdoor notice board with glass door and lock, steel structure. Dimensions: W 128 x H 250 cm.

The **notice board for public spaces with lock H287_388** is the ideal solution for the safe and orderly posting of official communications in outdoor environments. Designed for **municipalities, schools, companies, public parks and other institutional contexts**, it combines functionality, resistance and content protection.

The structure is composed of **two posts in galvanized round steel tube Ø76 mm thickness 3 mm**, with a **60 x 30 mm steel profile frame**, which gives **solidity and stability to the entire notice board**, making it suitable for permanent installations.

The door is made of **aluminum profile with 3 + 3 mm laminated safety glass**, complying with anti-accident regulations, to ensure **protection from impacts, vandalism and atmospheric agents**. The **integrated lock** allows the posted communications to be kept safely, preventing unauthorized access.

The **useful space for posting is 100 x 100 cm**, with a **galvanized and magnetic internal surface**, designed for use with **magnets (supplied as standard)**, avoiding the use of pins or glues that damage documents.

In **gray** color, to adapt the product to the visual identity of the urban or corporate context.

Protect and enhance public information with a secure and durable notice board. Order the **notice board for public spaces H287_388** or request a quote for public or corporate supplies.

FAQ:

1. **Is the notice board vandal-resistant?**

Yes, it is equipped with safety glass and a robust steel and aluminum structure.

2. **How are the sheets fixed inside?**

Using magnets on the galvanized and magnetic surface, supplied as standard.

3. **Is it suitable for completely outdoor environments?**

Yes, thanks to galvanization, it is designed for continuous outdoor use.

4. **Does it require special maintenance?**

No, the materials used are designed to last over time with minimal maintenance.

5. **What color is the notice board?**

The notice board is gray.

Mini buying guide:

When choosing an **information notice board for outdoor environments**, consider the **security of the posting**, the **resistance to atmospheric agents** and the **ease of updating contents**.

The H287_388, with **safety glass door, lock closure and magnetic surface**, is perfect for contexts where it is important to protect the displayed information.

The **anchoring to be buried** guarantees stability and wind resistance, while the galvanized and painted frame ensures **long life without rust**.
