

## Notice board with fir wood paneling h773\_10

Notice board with fir wood paneling and shingle beadboard roof, ideal for parks, trails, and green areas. Supplied in an assembly kit, with assembly hardware included. Panel dimensions: W 121 × H 110 cm.

The **H773\_10 wooden notice board** is a robust and practical solution for **signage in natural areas and public spaces**, such as parks, nature reserves, and hiking trails. Built in **fir wood with 1.9 cm thick paneling**, it is designed to **resist weather agents** and ensure long-lasting durability over time.

The **shingle beadboard roof** provides a rustic and natural aesthetic, while offering **effective protection against rain and humidity**, preserving the displayed contents. The structure is supplied in an **assembly kit**, with all the **hardware necessary for assembly**, making installation simple and fast. Ground fixing hardware is not included, to allow for greater installation flexibility based on the terrain (concrete or natural soil).

With its **panel dimensions of W 121 × H 110 cm**, this notice board offers **ample display space**, ideal for maps, regulations, and tourist information. The design and choice of materials ensure **durability and perfect integration with the surrounding environment**.

The **H773\_10** notice board is the ideal choice for those seeking a functional, resistant, and easy-to-maintain notice board, suitable for any outdoor space.

**Choose the H773\_10 wooden notice board for your outdoor signage! Buy now or request a personalized quote.**
