

Nursery changing table with ladder h172_167

Changing table cabinet in beech melamine for nurseries and preschools. Dimensions 80x50xh85 cm, gray side ladder, ABS rounded edges, sponge changing mat.

Changing table cabinet specifically designed for educational environments such as nurseries, preschools, and playrooms. It allows children to be changed in total comfort thanks to a stable and accessible structure, equipped with a side ladder that facilitates access even for the smallest children.

The structure is made of **18 mm thick beech melamine**, a robust and hygienic material, with **feet at the base** to ensure stability. The **gray beech plywood side ladder** allows safe and autonomous access. The work surface is equipped with a **top sponge changing mat with synthetic leather covering**, a soft and easily sanitizable surface. All **edges are rounded and covered in ABS and rubber**, an essential element to ensure maximum safety during use in environments with children.

The cabinet includes a **shelf for storing and organizing items** such as diapers, wipes, and other consumables, maintaining order and operational practicality.
