

Nursery coat rack h927_10

4-seater coat rack in colored polypropylene, length 50 cm, with rounded corners for maximum safety in nurseries and kindergartens.

The **4-station coat rack** is a functional solution specifically designed for furnishing educational and recreational environments dedicated to early childhood. Made entirely of **high-resistance polypropylene**, the product combines a lightweight structure with remarkable mechanical durability, ideal for intensive daily use in collective contexts. The design is characterized by **rounded corners** and surfaces free of sharp edges, ensuring the prevention of accidental injuries during children's activities.

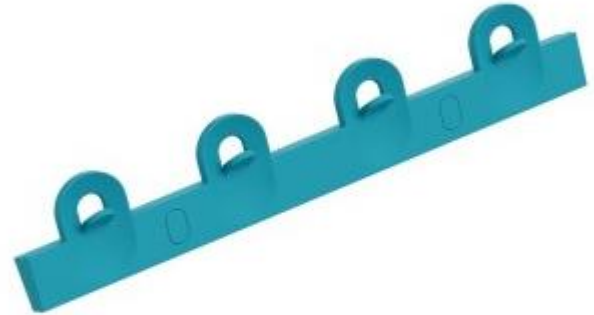

Technical features

- Material: high-quality polypropylene
- Number of stations: 4 integrated hooks
- Total length: 50 cm
- Safety: rounded edges and anti-trauma corners
- Finish: available in various bright colors for chromatic stimulation
