

Nursery school feeding table h681_28

Feeding table h681_28, made of solid FSC beech wood and birch plywood top with scratch-resistant finish. Dimensions: W 140 x D 90 x h 52 cm.

The **nursery school table h681_28** has been specifically designed for children aged **0-3 years**, making it ideal for activities such as feeding and other school activities. Built to ensure **stability, safety, and durability**, this table is perfect for environments such as **nurseries** and **preschools**.

The **8-leg structure** of the table is made of **solid FSC beech wood**, with **60 mm diameter** turned legs that ensure excellent robustness. The wood is naturally polished with **non-toxic water-based transparent paints**, guaranteeing a smooth and safe surface for the little ones. The legs are anchored to the top via a **threaded pin coupling system**, screwed onto a socket embedded in a **patented tear-proof plastic plate**, which ensures a stable and lasting hold. This design preserves **correct anthropometric spaces**, facilitating use by children and their comfort.

The **tabletop** is made of **E1 class birch plywood panels** for formaldehyde emissions, with a thickness of **21 mm**. The bilaminated coating on both sides in **9/10 thick HPL plastic laminate** ensures a **matte, scratch-resistant** and fireproof finish (class 1 fire reaction), making the table suitable for intensive use and safe even in case of fire exposure. The **magnolia** coloring adds a touch of brightness and warmth to the environment.

For additional functionality, the top is equipped with **holes with plastic bushings** that allow for easy accommodation of chairs with metal tubular structures (not included in the supply), ideal for stabilizing the children's position during feeding. Visible edges are rounded and naturally polished with **non-toxic transparent varnish**, complying with current safety regulations to prevent possible injuries. At the base of the legs, **adjustable anti-noise feet** made of robust plastic material avoid scratches and unwanted noise, ensuring stability even on uneven surfaces.

Ensure the comfort and safety of your little ones with the **nursery school table h681_28**! Perfect for feeding and daily activities, it is a durable and safe choice for every educational space. **Order now** and improve your facility's environment!

Technical features:

- **Dimensions:** W 140 x D 90 x h 52 cm
- **Age of use:** 0/3 years
- **8-leg structure:** solid FSC beech wood, 60 mm diameter turned legs, naturally polished with non-toxic water-based transparent paints
- **Leg-to-top fixing system:** threaded pin coupling and socket embedded in a patented tear-proof plastic plate
- **Top:** E1 class birch plywood, 21 mm thickness, coated with 9/10 thick HPL plastic laminate, scratch-resistant and fireproof (class 1)
- **Top finish:** matte, scratch-resistant
- **Top color:** magnolia
- **Chair holes:** equipped with plastic bushings to accommodate chairs with metal tubular structures (chairs not included in the supply)
- **Edges:** rounded and naturally polished, safe and non-toxic
- **Tips:** adjustable anti-noise, made of robust plastic material

User benefits:

- **Maximum safety:** rounded edges and non-toxic paints ensure safe use for children.
- **Resistance to intensive use:** stable structure and scratch-resistant top, perfect for daily activities in school environments.
- **Ease of cleaning:** scratch-resistant and water-resistant finish, ideal for optimal hygiene.
- **Functional design:** equipped with holes for fixing chairs, for a safe seating during feeding.
- **Ecological materials:** made of FSC wood, from sustainable forests.

FAQ:

1. For what ages is this table suitable?

The table is designed for children aged **0-3 years**, ideal for activities such as feeding and playing in school environments.

2. Is the table scratch-resistant?

Yes, the top is coated in scratch-resistant **HPL plastic laminate**, ideal for resisting intensive use.

3. Are the materials used safe for children?

Absolutely yes, the table is made with **FSC wood** and treated with **non-toxic paints** complying with child safety regulations.

4. Is it possible to fix the chairs to the table?

Yes, the top is equipped with **holes with plastic bushings** to accommodate chairs (not included in the supply) with metal tubular structures, offering stability during use.

5. How do you clean the table?

The table is easy to clean with a damp cloth and mild detergents, thanks to the scratch-resistant and water-resistant surface.

Mini buying guide:

The **nursery school table h681_28** is an excellent choice for nurseries and preschools looking for a **safe, functional**, and **durable** product for children aged **0-3 years**. With a robust structure in **solid FSC beech wood** and a top in **birch plywood** coated with scratch-resistant HPL laminate, this table is designed to withstand daily use and facilitate hygiene. The **rounded edges** and **non-toxic paints** guarantee safety, while the **holes for fixing the chairs** make it ideal for feeding. Thanks to the **anti-noise tips**, the table is stable on all surfaces without causing unwanted noise. Investing in a table like this means offering children a safe and comfortable environment, with high-quality and ecological materials.
