

Nursery school shelf h979_40

Wall-mounted shelf for nursery school h979_40 in 19 mm thick melamine, Oasis Oak finish. Equipped with rounded external corners and protective side panels. Dimensions: 120 x 20 x H 20 cm.

The **nursery school shelf h979_40** is a professional wall-mounted furniture element designed for optimal organization and safety of educational and teaching spaces. Developed specifically for **school managers, nursery school employers, interior designers, educators, and corporate safety managers in the school sector**, this complement responds to the need to set up stable and protected overhead support surfaces. It solves the operational problem of **displaying books, storing teaching aids or daily use materials out of the direct reach of children or in specific areas of the classroom, eliminating the risk of impact injury thanks to shaped side panels with rounded edges**. As highlighted in the geometric surveys of the file image_c857a0.png, the unit has a length of 1200 mm and is protected at the ends by side panels with a beveled diamond profile. The structure is entirely made of 19 mm thick high-density melamine panel (630 kg/m³) in the Oasis Oak body finish with a matte silky texture and 1 mm ABS edging. Supplied fully factory-assembled to avoid long assembly operations, the shelf is designed for direct wall mounting using plugs.

Technical features

- **Product type:** linear wall-mounted shelf / shelving for nursery school
- **Code reference:** h979_40
- **Overall length (L):** 1200 mm
- **Overall depth (P):** 200 mm
- **External overall height (H):** 200 mm
- **Internal useful height of the backrest:** 180 mm
- **Main structure material:** entirely in 19 mm thick melamine / melamine panel (wood particles formed by three layers, agglomerated with synthetic resins by flat pressing at high temperature and sanding)
- **Panel structural density:** 630 kg/m³
- **Coating specifications:** decorative paper coated with high-resistance 120 g melamine (normalized thickness), special for surfaces subject to high wear for continuous use, with anti-fingerprint effect
- **Aesthetic finish and body color:** silky texture with matte finish (Grade 4), Oasis Oak color
- **Configuration and finish of the side panels:** diamond-shaped protective side panels with rounded external edges (available in different colors of choice)
- **Perimeter protection edging:** 1 mm thick ABS edges
- **Installation hardware:** setup for direct wall mounting with plug
- **Supply configuration:** supplied assembled and ready for installation
- **Quality certificates and company controls:**
 - Initial inspection of our production and control system
 - Initial product type test
 - Surveillance, supervision, and evaluation of the quality system
 - Tests on the raw materials of our suppliers
 - ISO 9001, 14001, and 14006 certifications for corporate management
- **Mechanical resistance (UNE EN 14323):** scratch / scoring resistance ? 1.5 N; scratch defects ? 20 mm²/m²
- **Surface wear resistance (UNE EN 14323):** ? Grade 3 (structure resistant to continuous horizontal applications)
- **Chemical and stain resistance (UNE EN 14323):** ? Grade 3 (without visual defects); good resistance to acids, alkalis, and oils at room temperature (surface suitable for the use of aggressive household cleaning products without solvents)
- **Geometric tolerances of the edges (UNE EN 14323):** edge damage ? 10 mm/m; point defects ? 2 mm²/m²
- **Maintenance instructions:** washable and easy-to-maintain surface; ordinary cleaning with pH-neutral products is recommended
