

Nursing care bed for nursing homes h732_05

Electric care bed with fixed height. Dimensions: L.211 x W.105 x h.45 cm.

Orthopaedic hospital bed, ideal for nursing homes, care homes and clinics. Capable of ensuring the patient a comfortable position suited to their specific needs. The structure features **headboard, footboard and side rails in solid wood**, while the **slats are in iron** and form a surface with 3 joints and 4 sections. The bed is also equipped with an **electric actuator** that allows for the adjustment of the head and leg sections; the height is fixed. The base is equipped with **4 wheels, fitted with brakes**, to facilitate moving operations.

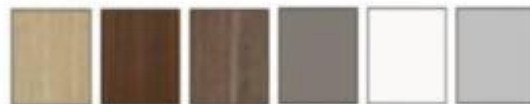

Technical features:

- Dimensions: L.211 x W.105 x h.45 cm
- Capacity: 140 kg + 50 kg safety load
- Structure material: solid wood
- Base with 3 joints and 4 sections with iron slats
- 6 sliding side rails controlled by a safety button
- Fixed height
- Base with 4 wheels with brakes
- Structure colour: bleached oak

***Images for illustrative purposes only. Upon request and subject to a quote, it is possible to choose a different colour for the central panel of the headboard/footboard from those available in the colour chart.*
