

## Nylon first aid backpack h687\_17

Emergency first aid backpack ideal for heavy medical devices. Capacity: 17 L. Dimensions: 275 x 130 x H.490 mm.

**The first aid backpack** is an essential product for rescue and recovery operations and is ideal for transporting even heavy equipment.

**The backpack is in fact scratch and wear resistant**, thanks to the tear-resistant nylon structure, with a shockproof ABS interior. Thanks to the central container, it is possible to secure even the heaviest objects using a series of loops, including elastic ones.

**Smaller and more delicate accessories can be stored in the front pocket with zip closure.** To increase protection, the bottom is protected by rubber studs. Complete with a sturdy handle and adjustable shoulder strap with shoulder pad.
