

Office document shredder h970_03

Quiet and efficient paper shredder, perfect for small offices. Dimensions: W 36.5 x D 25.5 x H 55.6 cm. Collection capacity: 25 L.

The **H970_03 paper shredder** is the ideal solution for those working in small offices or professional spaces and needing a reliable and secure tool for destroying confidential documents. With its **modern and timeless design**, this model is designed to ensure efficiency, quietness, and long durability.

The **steel cutting cylinders**, guaranteed for life, ensure the destruction of paper, staples, paper clips, and credit cards with maximum reliability. The **particle cut technology** (3.9 x 30 mm) guarantees a security level of **P-4** according to the DIN 66399 standard, ideal for the protection of sensitive data.

This model stands out for its **extremely quiet operation** (55 dB), which minimizes noise and allows for comfortable use in shared environments. The **stand-by energy-saving system** reduces consumption when the device is not in use, while the **anti-jam technology with automatic reverse** prevents paper jams, improving productivity and minimizing interruptions.

Thanks to the **25-liter collection bin**, the device can handle up to 350 shredded sheets before requiring emptying. The **integrated display** clearly indicates when the bin is full, automatically stopping the machine to prevent overflow. Removing the container is easy and convenient, making maintenance quick and uncomplicated.

Simplify the management of your documents and protect sensitive data with the **H970_03 paper shredder**. Ideal for offices and professional spaces, it guarantees efficiency, reliability, and security. **Buy now** or **request a personalized quote** for larger quantities.

FAQ:

1. Is the device suitable for shredding credit cards?

Yes, it can shred credit cards, in addition to paper, staples, and paper clips.

2. Does the container signal when it's full?

Yes, the integrated display clearly indicates when the bin is full and the machine automatically shuts off.

3. What is the noise level during use?

It is extremely quiet, with a noise level of only 55 dB(A), perfect for work environments.

4. What does security level P-4 mean?

The P-4 level ensures that documents are destroyed into small particles (3.9 x 30 mm), ideal for protecting sensitive information.

Mini buying guide:

If you are looking for an **office paper shredder**, there are some key elements to evaluate. The **H970_03** model is perfect for small offices or professional environments thanks to the **P-4 security level**, which protects your sensitive information by destroying it into particles that are almost impossible to reconstruct.

The ability to shred up to 9 sheets at a time and the **operational quietness** make it ideal for shared spaces, without disturbing daily work. Furthermore, the **25-liter container** and the full bin signaling display offer practicality and ease of use. This model also stands out for its long-term reliability: the **steel cutting cylinders** with a lifetime warranty represent a safe and durable investment.

If you need a versatile tool that can also handle paper clips, staples, and magnetic cards, the **H970_03** is the right choice for you.

Office paper shredder, H970_03, P-4 paper shredder, 3.9x30 mm particle cut, sensitive data protection, quiet paper shredder, confidential document destruction, energy saving, paper shredder with display.
