- **Easy maintenance:** Large and removable container for quick emptying.

FAQ:

1. Is it suitable for shredding credit cards or staples?

Yes, the model can shred credit cards, staples, and CDs, respecting the security levels.

2. What is the lifespan of the cutting rollers?

The rollers are made of steel with a lifetime warranty, designed to withstand prolonged use.

3. How is the container emptied?

The top part is easily removed, allowing for quick and hassle-free emptying.

4. What does security level P-4 mean?

It means that documents are shredded into very small fragments, suitable for protecting sensitive information.

Mini buying guide:

When choosing a paper shredder, it is important to evaluate some fundamental aspects to ensure the model meets your needs. If you need to dispose of **confidential or sensitive documents**, opt for a model like the **H970_01**, which offers high security levels (up to P-4). This ensures that information is shredded into very small fragments, impossible to reconstruct.

Consider then the **number of people** who will use the device. H970_01 is perfect for home environments or small offices, thanks to its ability to shred up to 14 sheets simultaneously (strip cut). **Quietness** is another crucial element: with only 55 dBA, you can use it without disturbing colleagues or family members. Finally, evaluate the ease of maintenance: this model, with a 20-liter container and a compact structure, is easy to empty and takes up little space on the desk.

Home paper shredder, small office use paper shredder, H970_01, confidential document destruction, particle cut, security level P-4, silent paper shredder, professional paper shredder.
