

Office stool without armrests h776_76

Stool with medium backrest, black nylon base and light blue faux leather upholstery. Dimensions: approx. W 600 x D 620 x H from 1060 to 1310 cm.

The **office stool without armrests H776_76** is designed to ensure **comfort, mobility and practicality** in dynamic work environments such as offices, medical practices, laboratories, receptions and operative areas. The compact design and ergonomic structure make it ideal for workstations where **freedom of movement and adjustable seating** are required.

Equipped with a **medium backrest** and **"AC" gas movement**, the stool allows for **smooth height adjustment**, promoting correct posture during hours of use. The **light blue faux leather** upholstery adds a touch of color and professionalism to the environment, and is easy to clean, ideal for healthcare settings or high-frequency use.

The **black nylon base** has a diameter of **600 mm** and guarantees **stability and resistance**. The **twin-wheel black nylon casters** with **grey desmopan coating** (diameter 50 mm) allow for **smooth gliding** on any type of flooring without damaging it.

Choose the **H776_76 stool** for a versatile, ergonomic and resistant seat. Contact us for custom orders or full office supplies.
