

## Office task chair height 96 to 108 cm h449\_147

Padded chair for intensive use, fireproof and certified. Dimensions: 68 x 64 x H 96 - 108 cm.

The **task chair H449\_147** is designed for **professional environments with high intensity of use**, ideal for those who work up to **24 consecutive hours**, such as in control rooms, receptions, control stations or H24 corporate environments.

Built on a solid **steel structure**, it combines **class 1 fireproof materials** with a functional and adjustable design. The **padded seat** is made of **PPL reinforced with steel bars**, with **5 cm T30 fireproof foam**, while the **padded backrest** with **4 cm T30 fireproof foam** offers comfort even during prolonged sessions.

The seat is **size M**, with a compact but ergonomic structure. The **gas lift** mechanism and the **height-adjustable backrest** allow for excellent customization. The **permanent contact with return spring** system keeps the backrest always active to support the back continuously, without stiffness.

The **nylon wheels with brake Ø 50 mm** guarantee stability and safety, especially in environments with smooth or sloping floors. The **Ø 64 cm base** ensures the right balance between stability and overall dimensions.

The **armrests are not included** but can be purchased separately as an **option**, making the chair customizable according to operational needs.

Rely on the **H449\_147 chair** for intensive professional use. Request a consultation or a personalized offer for large supplies now.
