

Office task chair with armrests h1038_02

Ergonomic task chair without headrest, equipped with a breathable mesh backrest and height-adjustable armrests. Dimensions: W 66 x D 68 x H from 94 to 112 cm.

The **office task chair h1038_02** is an ergonomic chair designed to ensure comfort and support during daily work activities. This model stands out for its **mesh backrest** that promotes breathability and for the absence of a headrest, offering a more essential line without sacrificing ergonomics. Thanks to the synchro mechanism with 5-position point locking effect, anti-shock system with manual intensity adjustment, and height-adjustable armrests, it allows for accurate customization of the seating position. The structure combines a solid nylon frame with polyurethane resin padding on a wooden shell, ensuring durability and stability.
