

Oil and hydrocarbon spill kit 201 lt absorbency h104322

Oil and hydrocarbon spill kit 201 lt in wheeled metal cabinet. Dimensions: W 58 x D 46 x H 100 cm. Steel sheet with wheels and safety lock.

The **oil and hydrocarbon spill kit** (model h104322) is a high-capacity emergency response system, housed inside a wheeled metal cabinet with a handle for easy positioning. Designed specifically for workshops, industries, logistics warehouses, and maintenance departments, this device is aimed at corporate safety managers who require a centralized and protected mobile remediation station. The system solves the operational problem of the **secure storage of absorbent materials and the timeliness of intervention** in the event of major oil spills on industrial floors. The cabinet is made of P02 carbon steel sheet, subjected to a phospho-degreasing treatment in high-temperature tunnels and finished with epoxy-polyester painting in YELLOW RAL1021 color with baking in a thermal gallery at 180°, ensuring maximum structural resistance and immediate visibility in the event of an environmental emergency.

Technical features

- **Minimum absorbent capacity:** 201 liters
- **Cabinet dimensions (WxDxH):** mm 580x460x1000
- **Structure material:** P02 carbon steel sheet
- **Surface treatment:** phospho-degreasing in high-temperature tunnels
- **Painting:** epoxy-polyester in YELLOW RAL1021 color with 180° thermal gallery baking
- **Logistics configuration:** wheeled cabinet equipped with positioning handle, 2 rear rubber wheels, and adjustable front feet
- **Internal organization:** height-adjustable containment shelves
- **Closing system:** ergonomic plastic and aluminum lock with double key, complete with rod closure with tamper-proof rod covers
- **Absorbent rolls included:** 1 absorbent roll with dimensions 41 cm x 46 m
- **Absorbent socks included:** 7 absorbent socks with dimensions cm 7.6x120
- **Absorbent pillows included:** 2 absorbent pillows with dimensions cm 25x25
- **Bulk absorbents included:** 1 bag of 10 kg granulated absorbent powder
- **Cleaning accessories:** 1 dustpan and brush kit
- **Eye protection devices:** 1 pair of protective goggles
- **Hand protection devices:** 1 pair of neoprene gloves
- **Waste disposal systems:** 5 waste collection bags
- **Specific intended use:** absorption and confinement of oil, fuels, and hydrocarbons
