

One-piece concrete bike rack h109208

Single-seat bike rack with concrete structure. White finish. Dimensions: 600x245x320h. Made in Italy.

The bike rack is not only a functional element but also a piece of furniture. The simple design with curved lines makes it ideal for squares, town centers, residential complexes and schools

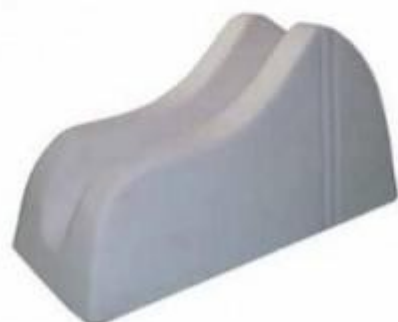

This bike rack is made **of white concrete** with an acrylic coating paint treatment. This treatment **effectively protects the product from alkalis and aggressive agents** present in the atmosphere because it reduces concrete carbonation phenomena as it has a high resistance to carbon dioxide penetration. The product **does not suffer from thermal shocks** and can therefore be used in places subject to strong temperature fluctuations.

Technical features:

- Dimensions: mm 600 x 245 x 320 (L x D x h)
- Structure: in concrete
- Color: white
- Weight: approx. 32 Kg

INFORMATION

- **warranty** 1 anno
- **Material** concrete
- **strengths** amovibili con base in cemento, mono-facciali
- **Typology** al suolo
- **length** 600 mm
- **fixing** removable
- **Color** bianco
- **places** 1
