

Single-seater wooden changing table h17501

Single-seater changing table in beech melamine wood with 90x75x15 cm padded top. Waterproof structure with rounded ABS edges, safety system shelves with spring pins, adjustable feet. Made in Italy.

The single-seater changing table is a solution dedicated to educational and healthcare facilities that need safe, stable, and hygienic equipment for baby changing and hygiene operations. The structure combines constructional robustness with safety-oriented details, meeting the requirements of collective environments where reliability is a priority.

Technical features

- **Main structure:** 18 mm thick waterproof beech melamine wood-based panels
- **Edges:** 2 mm thick ABS with beech finish, rounded at corners and edges
- **Back:** 8 mm thick beech melamine wood-based panels, finished for exposed solutions
- **Assembly:** 8 mm wooden dowels and water-based vinyl adhesive; back supported by a channel 1 cm from the edge with 6 mm depth
- **Front frame:** beech melamine with rounded edges; corners finished with ABS safety joint
- **Shelves:** fixed with a spring pin system that prevents removal
- **Support feet:** ABS with central adjustment for leveling; stem diameter 58 mm, base 110 mm for maximum stability
- **Work surface:** 16 mm wood particle board with fir and 6 mm plywood splashbacks, covered in foam material (2 and 4 cm), finished in fire-retardant PVC-free faux leather on the top layer
- **Splashbacks:** screwed with 5x70 mm self-tapping screws, removable for extraordinary cleaning or replacement
- **Dimensions:** width 75 cm, depth 55 cm, height 87 cm; padded top 90x75x15 cm
- **Available colors:** sand yellow, light blue, sea green
- **Origin:** Made in Italy
