

Operating room basin stand h711_04

Professional chrome-plated steel basin stand for operating rooms, complete with 6-liter stainless steel basin and 5-spoke mobile base. Height 82.5 cm.

The h711_04 operating room basin stand is an essential medical device designed to ensure maximum functionality and hygiene within operating blocks and hospital contexts. The structure is conceived to support the activities of healthcare personnel, offering a collection point for liquids or materials during surgical procedures, minimizing bulk and maximizing stability.

Technical features

- **Fixed height:** 82.5 cm, optimized for operational ergonomics.
- **Structure:** Made of robust high-resistance chrome-plated steel.
- **Equipment:** Includes 1 removable 18/8 stainless steel basin.
- **Capacity:** Useful basin volume of 6 liters.
- **Base:** 5-spoke configuration to prevent accidental tipping.
- **Mobility:** 50 mm swiveling wheels for smooth and precise movement.
