Operating room cleaning trolley h422_33

Hospital cleaning trolley in antibacterial plastic. Dimensions 118x66x112 cm

Trolley used for waste collection and for washing and/or disinfection in hospital environments, nursing homes, clinics and doctors' offices with the "upstream" cloth impregnation system with **airtight buckets**. Made of **antibacterial polypropylene copolymer**, **top quality** material: resistant to shocks, frequent use and low temperatures, lightweight, non-toxic and **totally recyclable**. Plastic material treated with zinc pyrithione which inhibits **bacterial proliferation**: the trolley has been subjected to laboratory tests on samples of Staphylococcus Aureus, Escherichia Coli, Pseudomonas Aeruginosa and Klebsiella Pneumoniae. The antibacterial action is guaranteed for the entire product cycle. Robust, compact, ergonomic, modular and easy to **assemble and clean**. The hospital cleaning trolley is equipped with **silent non-marking** rubber wheels. It is also equipped with convenient **2 x 60-liter bag holders** for the separate collection of either waste or dirty clothes, with ergonomic push handle, handle hooks and dustpan holder. The 4-liter buckets each have different handle colors for possible differentiation of chemicals and tools used. The trolley is partly made with PSV - Second Life Plastic certified plastic components: the first Italian and European environmental product certification brand that guarantees and makes it easier to identify goods obtained using recycled plastics.

Technical Features:
