

Operating room clock h775_12

Professional operating room clock. Independent movement.

This digital LED clock is designed to meet the specific needs of operating rooms, ensuring precision, readability, and cleanliness. With a robust and resistant structure, it offers reliability and durability over time.

The casing is made of stainless steel, sanitizable to comply with the rigorous cleaning requirements of healthcare environments. **The display protection is guaranteed by resistant glass**, which increases its durability and safety.

This clock displays hours, minutes, and seconds, also offering a stopwatch function. **The hour and minute characters have a height of 7 cm**, while the seconds are 5 cm, ensuring optimal readability up to 30 meters with a 120-degree viewing angle. LEDs are available in two colors, red or green, depending on preferences and the specific needs of the environment.

From a technical standpoint, the clock is equipped with an independent movement, ensuring high precision and reliability. It is powered by 110/230V AC voltage, adaptable to various electrical needs. With a weight of 4 kg, it is robust and stable. It is designed to operate in a wide temperature range, from -5 to +55 degrees Celsius, and has an IP30 protection rating, suitable for indoor use.

Technical features of the clock:

- Red digital LED clock
- Stainless steel casing (IP65, IK07) with mineral glass protection and keyboard compliant with operating room requirements
- For indoor use
- Hours, minutes, and seconds display
- Character height 7 cm (5 cm for seconds)
- Optimal reading distance: 30 meters
- Independent movement
- Recessed mounting with 4 holes
- Reading angle: 120°
- Silent operation
- Programming and setting via 2 buttons
- Digits consisting of 7 segments with 3 LEDs each
- Consumption: 55mA
- Operating temperature: from -5 to 55°C
- Weight: approx. 2.2 kg
- Electrical protection: class 2
- Dimensions: W.460 x D.45 x H.147 mm

Separately, as an **optional** extra, it is possible to purchase the **back cover**, useful for protecting the clock from dust and moisture.

**Other LED colors are available upon request via quote*
