

Operating room trolley with door h564_111

Stainless steel operating room trolley with 5 drawers and one door. Dimensions: 800 x 550 x H.950 mm.

The operating room trolley is ideal for the transport of instruments and dressings inside surgical rooms and is therefore ideal for hospitals and clinics.

The trolley features a structure made of 18/10 Aisi 304 stainless steel round tube with a diameter of 25 mm, washable and disinfected, hygienically safe, completely welded.

The shelves are made of AISI 304 stainless steel sheet with a brushed finish and perimeter containment edge (H: 20 mm)

The 5 drawers are made of AISI 304 stainless steel with a brushed finish and ABS handles. **The cupboard compartment** is made of 0.9 mm thick AISI 304 stainless steel sheet with a brushed finish, closed at the front by 1 hinged door, abs handles, ergonomic grip, anti-trauma.

Technical features:

- Material: AISI 304 stainless steel
- Upper shelf capacity: 40 kg
- Total capacity: 60 kg
- Clearance between shelves: 474 mm
- 2 steel push handles
- 4 non-marking PVC annular bumpers
- 4 solid rubber wheels (2 with brakes)
- Dimensions: 800 x 550 x H.950 mm
- Weight: 35 kg
