

Operating table for veterinary clinic h930_32

Veterinary operating table with hydraulic height adjustment and table top tilt adjustment via gas springs. L. 167 x D. 65 x h. 78-118 cm.

This **operating table** is specifically designed for **veterinary clinics**, ensuring functionality and durability. The **powder-coated steel structure** provides strength and long life, while the **stainless steel top**, with generous **dimensions of 160x65 cm** and equipped with **two drainage holes**, facilitates cleaning operations and fluid management. The table is stabilized by **four rubber feet**, which ensure solid adhesion to the floor and reduce the risk of slipping. For greater versatility, the **table's height can be adjusted hydraulically** via a **hydraulic actuator**, while the **tilt of the top** can be modified up to an angle of **30°** thanks to **gas springs**. The equipment also includes an **IV pole**, a **mattress** to ensure maximum comfort and a **non-slip mat for the table top**, adding further safety and practicality. With a **maximum capacity of 150 kg**, this table represents a robust and reliable solution for the daily needs of a veterinary clinic. The table is equipped with **rails** for additional accessories, not included in the supply.

Technical features:

- Dimensions: L. 167 x D. 65 x h. 78-118 cm
- Tilt angle: 30°
- Table top surface: 160x65 cm
- Work area surface: 154x59 cm
- Maximum capacity: 150 kg
- Weight: 70 kg
- Stainless steel top with 2 drainage holes
- Powder-coated steel structure
- 4 rubber feet
- IV pole
- Mattress
- Non-slip mat for table top
- Hydraulic height adjustment via hydraulic actuator
- Tilt adjustment of the top via gas springs
