

Outdoor ashtray h140_496

Ashtray for urban environments in galvanized steel. Dimensions: W 28 x D 28 x H 84 cm. Corrosion-resistant coating.

The **square outdoor ashtray H140_496** is designed to ensure functionality, robustness and style in urban contexts. Its **galvanized steel structure** with decorative ribs adds an aesthetic touch that fits perfectly in plazas, streets and public areas. The robust design is intended to withstand atmospheric agents, preventing corrosion and ensuring long durability.

The **galvanized steel internal container** offers a safe and efficient system for collecting ash and cigarette butts, with an **anti-cut edging** that ensures safety during maintenance. The reinforced base features **pre-drilled double plates**, which facilitate fixing to the ground with screws and expansion plugs, ensuring maximum stability even in high-traffic areas.

The **thermosetting powder coating** and the **“gunmetal” finish** not only protect the metal from rust, but also provide a modern and professional appearance. The ashtray is supplied in a **complete assembly kit** with steel hardware and detailed instructions for quick and safe assembly. This makes it an ideal choice for public administrations, companies and commercial spaces wishing to maintain the cleanliness of outdoor spaces with a design element.

Don't let ash and cigarette butts ruin the image of your outdoor spaces! Order our **outdoor ashtray H140_496** in galvanized steel now, designed to last and keep the urban environment clean. Take advantage of our special offers for large quantity orders and request a personalized quote. We guarantee quality products that enhance your spaces.

- **Guaranteed durability:** Weather-resistant materials and finishes.
- **Safety:** Anti-cut edging for risk-free maintenance.
- **Versatility:** Elegant design suitable for any urban context or outdoor space.
- **Practical installation:** Easy and stable fixing to the ground.

FAQ:

1. Is the ashtray suitable for indoor use?

No, it is designed specifically for outdoors and urban environments.

2. **How is the product fixed?**
The ashtray is prepared for ground fixing using anchor bolts and expansion plugs.
3. **Is it available in other colors?**
Currently the standard finish is “gunmetal”.
4. **Is the product rust-resistant?**
Yes, thanks to the thermosetting powder coating.
5. **Is the assembly kit provided?**
Yes, the product is supplied in an assembly kit with steel hardware and instructions for assembly and ground fixing.

Mini buying guide:

Choosing the right outdoor ashtray requires attention to several aspects to ensure a functional and long-lasting solution. Firstly, evaluate the **material**: galvanized steel is an excellent choice for resisting rust, corrosion and wear, especially in areas subject to variable weather conditions or high traffic. The presence of a **powder coating** represents a further advantage, as it protects the surface of the product and preserves its aesthetics over time.

Also pay attention to the **design**: an ashtray like this H140_496 with decorative details, such as ribs or modern finishes, helps to enhance the appearance of outdoor spaces, integrating harmoniously with the urban or commercial environment. **Stability** is another crucial element: make sure the chosen model has a robust base and preparations for ground fixing, such as pre-drilled plates, which prevent accidental displacement or tipping.

Finally, check the **maintenance practicality**. A removable internal container with anti-cut edging, like the one in this model, facilitates emptying and cleaning, minimizing risks for the operator. Opt for a product like this H140_496 that also includes a complete assembly kit, with detailed instructions, to facilitate installation. Also evaluate the availability of spare parts and the possibility of customizing the product in terms of colors or finishes, should it be necessary to adapt it to specific aesthetic or functional needs.

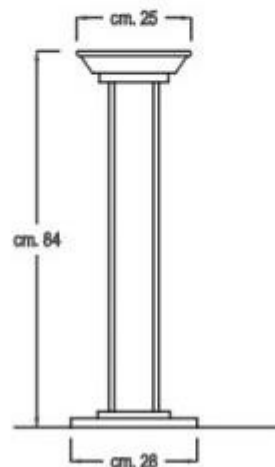

A robust and well-designed ashtray not only helps keep public and private spaces clean, but also represents a long-term investment to ensure order, safety and a well-kept appearance in every outdoor environment.

Outdoor ashtray in galvanized steel, square ashtray for urban furniture, rust-resistant ashtray, urban furniture outdoor ashtray, ground-mounted ashtray, modern design ashtray, sturdy ashtray for public spaces, ashtray for urban environments.
