

Outdoor ashtray h223_10

4-liter round outdoor ashtray, hot-dip galvanized and powder-coated. Dimensions: Ø 20 x H 15 cm, total height 29 cm.

The **outdoor ashtray model H223_10** is a robust and reliable solution for keeping the outdoor areas of hotels, restaurants, offices, and public spaces clean. Made with high-quality materials, it features a **hot-dip galvanized steel** structure according to the **DIN EN ISO 1461** standard, ensuring excellent protection against corrosion. The **powder-coated finish** adds an additional protective layer, ensuring weather resistance and a consistently neat appearance.

The ashtray has a **capacity of approximately 4 liters** and compact dimensions (Ø 200 x H 150 mm with a total height of 290 mm), making it ideal for limited spaces. It includes a **stainless steel stubbing plate** and a perforated bottom for **water drainage**, ensuring hygienic waste management and preventing liquid accumulation. The base is equipped with a **mounting rail** for secure wall mounting, facilitating installation and ensuring stability.

A distinctive feature of this ashtray is the **lid protected by a triangular rim lock**, which can be removed or rotated for emptying, ensuring security and protection against vandalism. Delivery includes a **metal triangular key** for opening and maintenance, and a sticker with a cigarette symbol for clear indication of use.

Improve the appearance of your outdoor areas with the **H223_10 outdoor ashtray**. Order it now to provide your guests with a clean and tidy environment!

FAQ:

1. **Is it difficult to install?**
No, the ashtray is easy to mount thanks to the included mounting rail.
2. **Is the lid vandal-proof?**
Yes, the triangular rim lock protects the contents and requires a specific key for opening.
3. **Does the perforated bottom work well for drainage?**
Yes, the perforated base prevents water accumulation and facilitates maintenance of cleanliness.

Mini buying guide:

When choosing an outdoor ashtray, ensure it is made of resistant materials like hot-dip galvanized steel and has a powder-coated finish for additional protection. Check the capacity and dimensions to ensure it fits the intended space. Opt for models with drainage systems to avoid water accumulation and with security locks to protect the contents from unauthorized tampering.
