

Outdoor cabinet for defibrillator h567_18

Outdoor carbon steel P02 cabinet, 425x215x480 mm, IP44, adjustable shelf, shockproof and anti-corrosion hinges.

Outdoor cabinet made of **P02 carbon steel** with 15/10 thickness, designed to withstand outdoor conditions and ensure protection of components and equipment. The structure combines **watertight welds** and **sealing gaskets** to prevent water and dust infiltration, certifying an **IP44** protection degree. The **sealed door** snaps shut with draw-bolt adjustment, allowing the application of a padlock or seal to increase security. The **metal alloy hinges** are treated to be anti-tear and anti-corrosion, guaranteeing long-term reliability. Inside, a **height-adjustable shelf** with a grid facilitates hot air circulation, preventing condensation buildup. The **technopolymer handle** ensures ergonomic opening without corrosion points.

Technical characteristics

- Use: outdoor
- Body material: P02 carbon steel, 15/10 thickness
- External dimensions: W 425 × D 215 × H 480 mm
- Useful internal space: W 420 × H 390 mm
- Door opening: W 365 × H 365 mm
- Weight: 13 kg
- Protection degree: IP44
- Closure: snap-lock with draw-bolt adjustment
- Internal shelf: height-adjustable with grid for air circulation
- Handle: technopolymer
- Preparation: padlock or seal (not supplied)

Available optionals

- **Support stand:** galvanized P02 carbon steel, body thickness 10/10, base thickness 12/10, prepared for floor fixing, dimensions W 250 × D 130 × H 1000 mm, yellow RAL 1021 color
