

Outdoor concrete waste container h287_333

Concrete waste bin for public spaces. Dimensions: Ø50 x h.100 cm. With lid available in different colors.

Waste container for public space furniture, ideal for placement in public parks, squares, municipal villas and pine forests. Thanks to its **robust concrete structure**, it ensures excellent **resistance against atmospheric agents**; moreover, being made of **concrete**, it does not need to be fixed to the ground given its high weight which makes it self-supporting and difficult to move. Equipped with a **colored flip-top lid complete with bag-holding ring** and complete at the top with a **decorative aluminum band** on which the name of the type of waste to be disposed of is engraved.

Technical features:

- Dimensions: Ø50 x h.100 cm
- Capacity: 90 lt
- Material: concrete
- Weight: 130 kg
- With decorative aluminum collar with engraved waste type
- With lid and bag holder
- Fixing: free-standing

INFORMATION

- **punti di forza** con coperchio
