

Outdoor fountain h319_59

Concrete urban furniture fountain with timed spray tap. Dimensions: Ø 520 x h. 920 mm. Available in various finishes.

Our **outdoor fountain** is a distinctive element designed to enrich and enhance public and private spaces. Made of **processed concrete** and specially treated to ensure durability and resistance to atmospheric agents, this fountain stands out for its **elegant bowl-shaped design**, which combines practicality and functionality. The fountain is equipped with a **timed spray tap**, an innovative solution that allows for efficient and sustainable water flow control. **The timed tap is included in the supply**, offering further convenience and optimizing water use. Designed as an urban furniture element, this fountain is ideal for a wide range of applications, from parks and public gardens to apartment courtyards and city squares. Its presence not only beautifies the surrounding environment but also contributes to creating a relaxing and welcoming atmosphere. The fountain is **available in various finishes**, allowing it to adapt perfectly to the architectural and landscape context in which it is placed. Its installation is simple and versatile: **it can be placed directly on the ground or anchored** with adhesive at the base to ensure greater stability and safety. With our fountain, every space can be transformed into a place of beauty and functionality, thanks to its combination of refined design and practical features.
