

Outdoor fountain h744_27

Outdoor cast iron fountain ideal for public spaces. Height: 110 cm. Total depth: 35 cm.

The **garden fountain** stands out for its elegant and functional design. The **central shaft**, with an **octagonal base and column**, is embellished at the top by a refined **decoration depicting a lion**, which houses a hole for the tap connection (not included). The **containment basin**, shaped **like a shell**, is equipped with a **small overflow drain pipe**, firmly fixed to the column via stainless steel pins. All fountain components are made of **EN GJL 200 cast iron**, complying with the **UNI EN 1561** standard, ensuring strength and durability over time. The fountain is fixed to level "0" using anchor bolts, ensuring stability and safety during installation.
