

Outdoor fountain h744_29

Square column fountain for urban furniture, with semicircular base. Material: cast iron. Height: 120 cm. Total depth: 50 cm.

Our **outdoor fountain** is the ideal choice for decorating villas, public parks, and historic centers, adding a touch of elegance and refinement to any environment. Made of **sturdy cast iron**, this fountain stands out for its durability and weather resistance. The design of the fountain includes a **semicircular base adorned with intricate decorations** that catch the eye and add an element of visual interest. The base supports a **containment basin**, designed with an **overflow outlet slot** and equipped with a practical **grating**, ensuring optimal water management and preventing unwanted accumulation. The structure of the fountain is further characterized by a solid **square column**, firmly anchored to the base via steel pins, ensuring stability and safety. The column culminates in a **decorative cover** topped with a **finely crafted pine cone**, carefully fixed for a final touch of class.
