

Outdoor fountain with drain basin h168_129

Hot-dip galvanized steel column fountain with hand-painted Caltagirone ceramic inserts. Ø 18 x h 115 cm, artisanal Made in Italy design.

The **outdoor column fountain** represents a functional and aesthetic solution for managing water points in high-profile residential and hospitality contexts. Designed to withstand the most severe environmental stresses, the structure is made of **hot-dip galvanized steel** through a bath process that ensures total protection against corrosion and oxidation. The element of architectural distinction is provided by the **Caltagirone ceramic decorations**, entirely hand-painted, which integrate the Italian artisanal tradition into outdoor design. The configuration includes an **integrated drain basin** for drainage and a pre-assembled internal water connection system.

Technical specifications

- Column dimensions: Ø 18 x h. 115 cm
- Depth footprint (including basin): 35 cm
- Structure material: Steel with hot-dip bath galvanizing treatment
- Decorative inserts: Hand-decorated Caltagirone ceramic
- Taps: High-resistance brass tap included

- Base: Equipped with a collection basin
- Connection: Integrated water connection pipe to the base
- Production: Made in Italy
