

Outdoor galvanized steel ashtray h1003_08

Painted galvanized steel ashtray with removable container. Dimensions: W 30 x D 30 x H 80 cm.

The **outdoor ashtray H1003_08** is an elegant, robust and functional solution for managing smoking waste in public contexts. Its design with **essential lines and clean geometries** guarantees a discreet but effective presence, capable of harmoniously integrating into contemporary urban environments such as **squares, public buildings, shopping centers, parking lots and pedestrian zones**.

The structure is made of **galvanized and thermosetting polyester powder-coated steel**, materials that offer **resistance to atmospheric agents**, protection against corrosion and **durability over time**, making it suitable even for permanent installations in outdoor environments exposed to sun, rain or humidity.

The **tapered and inclined shape** enhances its contemporary aesthetics, while the **top cover** integrates a **stainless steel cigarette extinguisher plate** that facilitates daily use. The internal container is equipped with **shaped handles** that allow for a **simple and quick extraction for cleaning**, making emptying operations practical and efficient.

The **ground fixing** is provided via anchors (not included), to guarantee **stability and safety even in high-traffic areas**. The availability of customizable colors in **RAL on request** allows the product to be adapted to every aesthetic or urban branding need.

Choose the **H1003_08 ashtray** to make your public spaces more orderly and modern! Order now or ask for a quote for large quantities.

Benefits for the user:

- **Design:** modern that adapts to any urban context.
- **High resistance:** to atmospheric agents and corrosion.
- **Easy:** to empty thanks to the removable internal container.
- **Safe:** stable thanks to ground fixing.
- **Available:** in different colors.

FAQ:

1. **Is the ashtray suitable for outdoor use?**

Yes, thanks to the galvanized steel and powder coating, it is perfect for outdoor environments.

2. **How is the container emptied?**

The container is easily extracted from the top using shaped handles for easy cleaning.

3. **Is it stable once installed?**

Yes, it is designed to be fixed to the ground with anchors (not provided) to ensure maximum stability.

4. **Are fixing materials included?**

No, the anchors for ground fixing are not included.

5. **Can I choose the color of the ashtray?**

Certainly, it is possible to select the desired color from those available in the RAL chart.

Mini buying guide:

If you are looking for an outdoor ashtray for a public or corporate space, consider some key aspects.

The **resistance to atmospheric agents** is fundamental: materials such as powder-coated galvanized steel guarantee long life and low maintenance.

Another essential element is the **emptying method**: a removable container with handles facilitates daily operations.

The **design** is also important, especially in urban contexts: an ashtray like the model **H1003_08**, with its tapered and essential shape, adds a touch of modernity without being invasive.

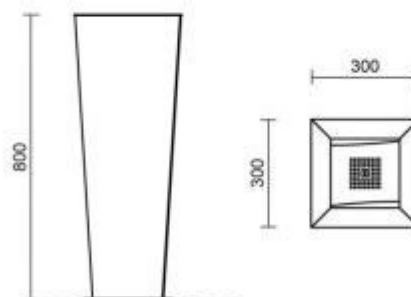

Finally, make sure the product can be **fixed to the ground**, to prevent displacement or vandalism, and evaluate the **possibility of color customization** to harmonize it with the surrounding environment.

Outdoor galvanized steel ashtray, urban furniture ashtray H1003_08, ashtray with removable container, modern design floor-standing ashtray, resistant ashtray for public environments, ashtray with stainless steel cigarette extinguisher.
