

## Outdoor gas cylinder cabinet h1043\_27

Cabinet for 12 outdoor gas cylinders. Dimensions: 1200x950x2000h mm. 12/10 galvanized steel, ramp included, lockable closure and 865 kg capacity.

The **outdoor gas cylinder cabinet** (model h1043\_27) is a heavy-duty professional structure, designed for the containment, storage, and protection of compressed gas containers in outdoor environments. Specifically made for **industries, workshops, hospitals, laboratories, and technical gas depots**, this device is aimed at company safety managers and hazardous materials logistics managers. The system solves the operational problem of **secure outdoor storage and protection against atmospheric agents**, preventing access to unauthorized personnel. The structure is entirely built in hot-dip galvanized steel with 12/10 thickness and features a hinged access door mounted on an extremely robust supporting frame. Thanks to the advanced technical design, the cabinet guarantees continuous natural ventilation that does not allow the stagnation of gas residuals, protecting the surrounding work environment.

## Technical features

- **Total overall dimensions (WxDxH):** 1200 x 950 x 2000 mm
- **Guaranteed maximum load capacity:** 865 kg
- **Storage capacity:** 12 cylinders of 50 liters each
- **Cylinder compatibility:** maximum diameter Ø 230 mm
- **Access configuration:** 1 hinged door mounted on a reinforced supporting frame
- **Structure material:** hot-dip galvanized steel with 12/10 thickness
- **Anti-intrusion safety devices:** sealable and lockable closing system to prevent unauthorized withdrawals
- **Climate protection:** protruding roof designed to protect the content from atmospheric agents
- **Gas risk prevention:** structural configuration that does not allow the stagnation of gas residuals
- **Fixing systems:** suitable and prepared for stable anchoring to the ground
- **Internal organization:** provision for internal division into lanes complete with safety chains
- **Included logistics accessories:** complete with ramp to facilitate storage operations
- **Empty handling:** palletizable structure to facilitate transport
