

Outdoor information board h738_127

Double-sided outdoor panel with anodized aluminum uprights and ground-fixable base, with white sheet metal background. Dimensions: W 200 x D 100 x H 200 cm.

The **h738_127 outdoor information panel** is the ideal solution for displaying **communications** or **advertising** in outdoor environments, guaranteeing resistance to atmospheric agents and visibility on both sides. Its structure consists of **two uprights** in **anodized aluminum** with a height of **2 meters**, finished with **top closure caps** for additional protection against water and dust. The **bases** measure **25x25 cm** and are equipped with four holes that allow for **secure fixing to the ground**, ensuring optimal stability even in adverse weather conditions.

The panel offers **double-sided** graphics with an **adhesive surface**, allowing information or advertising to be displayed on both sides, maximizing visibility in high-traffic areas. The **horizontal crossbars** in aluminum support the central panel, consisting of **two 10/10 white metal sheets** joined by a **5 mm forex core**, which provides strength and resistance to deformation. This combination of materials ensures an ideal surface for applying adhesive graphics and long-lasting durability.

With its dimensions of **200 x 100 x 200 cm**, the panel is perfect for installation in **outdoor spaces** such as **companies**, **supermarkets**, **hospitals**, **shopping centers**, or other public areas. The double-sided design allows for attracting attention from both sides, offering **maximum visual exposure**. The **silver** finish of the structure and the **white surface** of the panel provide a clean, modern, and professional appearance, perfectly adapting to any architectural context.

This panel is designed to withstand bad weather, such as rain, wind, or sun, thanks to the sturdy **anodized aluminum** construction and the high-quality materials used. It is a reliable and durable solution for those looking for a solid and easy-to-maintain display system, suitable for **outdoor** use in all seasons.

Make your outdoor communication more visible with the **h738_127 double-sided information panel**! Designed to ensure durability and a strong visual impact in outdoor environments, it is perfect for advertising or informing effectively. Purchase it now to install advertising messages or communications outside your company or business. For custom orders or quotes on large quantities, **request a tailored offer** and take advantage of our cost-effective solutions!
