

Outdoor modular cubic play set h735_20

Modular play station for children in high-resistance plastic material. UNI EN 1176-1/3 certification.

Robust and safe modular play set for equipped **outdoor play areas**, school gardens and playgrounds. **Easy to assemble** and made of **high-resistance plastic material**, **resistant to atmospheric agents and UV rays**. The **bright colors** that characterize the structure stimulate children to play and learn the colors themselves. Composed of **2 tunnels**, **2 reversible slide-ladders**, **3 cubes of which 1 with roof and 1 cap**. A total of **17 square panels and 4 triangular panels** are used to create the play station. **Compliant with UNI EN 1176-1/3**.

Technical features:

- Overall dimensions: 380 x 400 x h. 125 cm
- 17 panels in high-resistance plastic material
- 2 tunnels in high-resistance plastic material
- 2 reversible slides/ladders in high-resistance plastic material
- 4 triangles in high-resistance plastic material
- 1 cap in high-resistance plastic material
- Quick assembly
- Modular play system
- Resistance to UV rays and atmospheric agents
- The play equipment is equipped with UNI EN 1176-1/3 certification
