

Outdoor picnic table h763_69

Outdoor picnic table h763_69 in technological wood. Maintenance-free, eco-friendly configuration with dimensions 1.8x1.4x0.79 m.

The **outdoor picnic table h763_69** is a fixed furniture system developed for the enhancement and use of collective outdoor spaces. Designed specifically for **public administrations, municipal technical offices, recreational area managers, companies, and landscape architecture professionals**, this component transforms any outdoor space into a natural meeting point. The product responds to the needs of installing urban tables designed for sharing, relaxation, and community proximity, solving the operational problem of **rapid degradation and costly restoration interventions associated with natural wood benches permanently exposed to the weather**. The structure is characterized by the use of technological wood, an advanced material derived from recycling that combines wood dust and polymers in a matrix additivated with stabilizing and sealing agents, guaranteeing a natural aesthetic appearance combined with permanent structural durability.

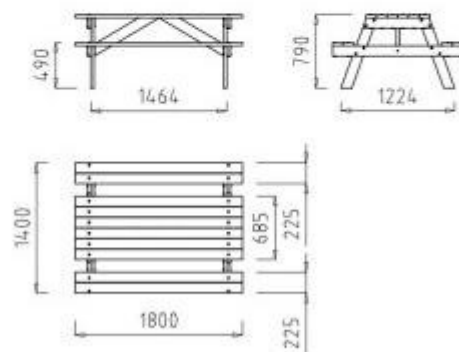

Technical characteristics

- **Product type:** outdoor picnic table for urban furniture and public spaces
- **Primary construction material:** maintenance-free technological wood (mixture of wood dust and advanced recycled polymers)
- **Chemical-physical composition of the material:** matrix with the addition of stabilizing and sealing agents
- **Surface properties:** natural appearance, does not require varnishes, paints, sealing products, or oils
- **Overall structural mass (Weight):** 150 kg
- **Thickness of profiles / slats:** 3.5 cm
- **Geometric overall dimensions (L x W x H):** 1.8 x 1.4 x 0.79 m
- **Logistical supply status:** delivered disassembled
- **Available color variants:** grey color and brown color
