

Outdoor pine wood bench h109_366

Backless bench in galvanized steel and pine wood. Dimensions: L 180 x D 47 x H 45.8 cm.

The **H109_366 outdoor bench** is an ideal choice for urban and commercial furniture, designed to last over time and ensure comfort in high-traffic contexts. Perfect for **public parks, squares, shopping centers, hotels, restaurants, farmhouses and campsites**, it can be installed both **outdoors** and **indoors**.

The structure consists of **two sturdy side supports** in **galvanized steel sheet**, precisely cut and folded, onto which the **base plates** for **ground fixing via expansion bolts** are welded. On the upper part of the supports, there are **welded plates** for fixing the **pressure-treated pine wood slats**, which guarantee long life even in adverse weather conditions.

The **seat** is **centrally reinforced** by a steel support fixed with **stainless steel hardware**, to ensure **stability, robustness and safety of use** even in public environments with high intensity of use.

The metal parts are **galvanized and painted with thermosetting polyester powders**, offering **excellent resistance to atmospheric agents, corrosion and wear** over time.

Choose the **H109_366 urban bench** to furnish your public or private spaces with style and functionality. Contact us now to request a personalized quote for multiple supplies.

FAQ:

1. **Is this bench only suitable for outdoors?**

No, it is designed for outdoors but can also be used in indoor environments such as shopping centers or lobbies of accommodation facilities.

2. **Is the wood treated to resist rain?**

Yes, the slats are in pressure-treated pine wood, so they are perfectly suitable for outdoor use.

3. **Is it possible to fix it to the floor?**

Yes, the structure is prepared for fixing to the ground using expansion bolts.

4. **Does the bench arrive already assembled?**

No, it is supplied disassembled but prepared for quick and easy assembly.

5. **What is the maximum weight capacity supported?**

The product is designed for intensive public use, with a reinforced structure, so it supports multiple users simultaneously in total safety.

Mini buying guide:

Backless benches are a practical and versatile solution for **public and commercial areas**. The H109_366 model is ideal if you're looking for a **simple but robust structure**, with resistant materials and **specific treatments for the outdoors**.

Always prefer benches with **galvanized steel, thermosetting powder finish, stainless steel hardware** and **pressure-treated wood**: this guarantees **durability over time, low maintenance and resistance to wear, weather and vandalism**.

A backless design facilitates placement on both sides of the pedestrian passage, making the bench also suitable for **cycle-pedestrian paths and walkways**.

Outdoor backless wood bench, steel and wood urban bench, pressure-treated pine outdoor bench, urban furniture bench to be bolted, resistant bench for public spaces.
