

Outdoor ping pong table in HPL and steel h832_04

Outdoor ping pong table in HPL and steel (274x152 cm). Modern design, vandal-proof net, and PRM accessible structure for universal inclusivity.

The **outdoor ping pong table** combines a modern and minimal design with high structural resistance, ideal for public and professional contexts. The playing surface is made of **HPL (High Pressure Laminate)**, a material chosen for its ability to withstand impacts and weather agents, and features **rounded corners** to maximize user safety. The supporting base consists of a robust structure in welded steel tubes with a thickness of 56 mm, treated against corrosion and finished with white powder coating. A distinctive element is the **compliance with PRM Accessibility standards**, making the table usable even by people in wheelchairs, promoting inclusive sport.

Technical features

- Dimensions: 2.74 x 1.52 x h. 0.76 m
- Safety zone required: 6.8 x 4.6 m
- Total weight: 140 kg
- Surface material: High-density HPL
- Available surface finishes: Ultramarine blue, pine green, anthracite grey, wenge wood, grey wood
- Surface safety: Anti-trauma rounded corners
- Base structure: Welded steel tubes (56 mm thickness)
- Base treatment: Rust-proof and white powder coating
- Central net: Triangular vandal-proof model with rounded corners
- Net material: Electro-galvanized sheet metal and white powder coated
- Accessibility: Compliant with "PRM Accessibility" standards
- Reference regulation: Compliant with EN 15-312 standard
- Supply status: Delivered disassembled
