

Outdoor signage panel h738_129

Outdoor signage stand consisting of a pair of uprights and 4 strips. Total dimensions: W 1440 x D 45 x H 1750 mm.

The **modular outdoor signage stand h738_129** represents a robust, functional, and versatile solution for ensuring effective signage in outdoor environments. Thanks to its modular structure and high-quality materials, such as **anodized aluminum** and **painted steel**, it is designed to withstand atmospheric agents, ensuring long-term durability without compromising on aesthetics. This makes it perfect for high-traffic contexts such as **companies, hospitals, supermarkets, museums**, and any public or private area requiring clear and precise signaling.

The **uprights** in anodized aluminum have an essential and modern design, equipped with **grooves** that allow the sliding insertion of the **strips**. The **ABS** top caps finish the structure, ensuring an elegant and protective closure. The possibility of fixing the uprights with **painted steel bases** or embedding them using special brackets offers great flexibility in installation methods, thus adapting to different needs and ground conditions.

A strength of this stand is the **customization of the strips**, available in various widths and heights, and with a customizable surface on both sides. Each strip is slide-inserted thanks to **locking pins fixed** with screws, allowing for a quick and intuitive modification of the signage content. The **gothic grey** finish provides a refined and neutral look, easily integrated into any outdoor architectural context, maintaining a professional and modern aesthetic.

The stand is highly modular, which allows the signage to be adapted to the specific needs of each area. This versatility makes it perfect for **directing people flows** or providing information clearly and effectively, in places where signage is fundamental to improving user experience and ensuring simple navigation within spaces.

Choose the **modular outdoor signage stand** and better organize your outdoor space with clear, customizable, and resistant signage.

Request a personalized quote now to receive a tailor-made solution for your needs, with customized strips and easy assembly. Don't wait, optimize the flow of people and improve the organization of your outdoor spaces!

Technical characteristics:

- **Uprights:** anodized aluminum with groove for strip insertion and ABS top caps.
- **Bases:** painted steel or brackets for ground embedding.
- **Strips:** extruded aluminum, customizable on both sides, with a thickness of 2 cm.
- **Total dimensions:** W 1440 x D 45 x H 1750 mm.
- **Upright dimensions:** W 70 x D 45 x h 1750 mm.
- **Strip dimensions:** W 1300 x D 20 x h 200 mm.
- **Finish:** gothic grey.
- **Installation:** possibility of ground fixing with bases or embedding with brackets.

User benefits:

- **Complete customization:** strips configurable according to specific needs.
- **Weather resistance:** materials designed to last over time in outdoor environments.
- **Modern and functional design:** elegant and neutral aesthetics, easily integrable into any context.
- **Ease of assembly and maintenance:** simple sliding system for quick changes.

FAQ:

1. **Are the strips replaceable in case of wear?**

Yes, the strips can be easily replaced or updated thanks to the sliding system in the uprights.

2. **How is it fixed to the ground?**

The stand can be fixed with painted steel bases or embedded using specific brackets.

3. **What maintenance is required?**

The materials used require minimal maintenance, limited to periodic cleaning of the surfaces.

4. **Can I order a version with more strips?**

Yes, the number of strips is modular and can be chosen based on your needs.

5. **Is it possible to customize the color of the structure as well?**

Basically, the stand is available in gothic grey, but other finishes are possible upon request.

Mini buying guide:

When purchasing a **modular outdoor signage stand**, it is important to consider the amount of information you want to display. For **companies** or **public areas** with a high flow of visitors, it is advisable to opt for more strips, thus ensuring that all indications are easily visible and understandable.

Evaluate the fixing option: if your stand will be installed in an area with soft ground or subject to wind, choosing to embed the uprights with brackets can offer greater stability. Be sure to consider **strip customization** to adapt the stand to the specific needs of your business or public space.

In contexts such as hospitals, museums, or shopping centers, where clear signage is essential to avoid confusion, a **customizable signage stand** like this is a smart choice. Opt for strips of **larger dimensions** in wider spaces or where visibility from a long distance is necessary.

Modular outdoor signage stand, customizable signage stand, aluminum outdoor stand, outdoor area signage, outdoor directional stand, customizable signage strips, corporate modular signage, outdoor hospital signage, supermarket signage stands, museum directional stand

**Upon request and subject to a quote, it is possible to customize with different numbers of strips and different heights, and both single-sided and double-sided prints can be requested.*
