

Outdoor steel table tennis h939_06

Outdoor ping pong table in SMC and galvanized steel. Dimensions 2740x1525 mm. Anti-vandal structure certified for public use and parks.

The **h939_06 ping pong table** is professional equipment specifically designed for permanent outdoor installation. Thanks to the use of advanced composite materials and anti-corrosion metallurgical treatments, it solves the critical issues related to prolonged exposure to atmospheric agents and intensive wear typical of public areas. The structure guarantees an elastic response of the ball comparable to indoor competition models, while maintaining very high resistance to vandalism and mechanical stress.

Technical features

- **Playing surface:** Made of 50 mm SMC (Sheet Moulding Compound), reinforced with thermosetting resin and fiberglass for maximum dimensional stability.
- **Supporting structure:** Legs and frame in hot-dip galvanized steel, treated with oven-baked polyester powder coating for total protection against rust.
- **Fixed net:** Made of curved steel tube and galvanized perforated sheet metal, without sharp edges for maximum user safety.
- **Fastening system:** Ground anchoring via 4 expansion bolts (included) on a concrete base.
- **Regulation dimensions:** Length 2740 mm x Width 1525 mm.
- **Surface height:** 760 mm from the ground to the playing surface.
- **Total weight:** 140 kg, guaranteeing extreme robustness.
- **Operating parameters:** Maximum load 120 kg; recommended safety distance 2 meters per side.
- **Regulatory compliance:** Product certified according to European standards UNE EN 14468-1/2015, UNE EN 14468-2/2016 and UNE EN 15312:2007 + A1:2011.

Available options:

- Playing surface color selectable between Blue or Green.
